Trumpet in Bb  
Horn in F  
Trombone Bassoon  
Baritone  
Tuba  
Mallets  
Timpani  
Percussion

\* Brass parts have been purposely written so that the notes will be played with open valves/1st position, except for bars 21-24, where they use 1st valve/3rd position.  
Horn part uses 4 different fingerings as opposed to 2 mainly to keep pitches in a comfortable/workable range- often doubling with alto sax. Suggested to have horns/alto saxes seated near each other.

\* "opt." = another choice of note for the performer to consider if it has been learned & is within a comfortable range.

\* Making changes according to your instrumentation is suggested if required to achieve an overall balance.
